Unida Nicaragua Triunfa**

PRESS RELEASE

The Government of Reconciliation and National Unity of the Republic of Nicaragua, respectfully greets President Xi Jinping, and the People of the People's Republic of China, and expresses on behalf of our People and Government our strongest, firm and categorical condemnation and rejection of the constant attacks against the Government and People of the People's Republic of China, whom they baselessly accuse of cyber-campaigns and cyber attacks, based on the admirable technological development of that Brotherly Country.

We know the language and aggressive modalities of the Empires of the World. We have experienced them firsthand. And we know that these ignoble attacks and campaigns respond to the repeated desire to dominate a World that does not belong

to them, because we are a Human Community of Intelligent, Creative, Cultured and Free Peoples.

The verbal assaults of the Imperialists of the Earth against the People and Government of the People's Republic of China are continuous, which with their admirable advances in all Fields of Science and Culture, only highlight the cultural and technological backwardness as a supreme weakness of those who worry and are more concerned with seeking domination of a World that, as History has shown, neither belongs to them, nor can they dominate.

The People's Republic of China, its Social, Economic, Justice, Development, International Solidarity, Equity and Well-being Model, represents an Example of what a World of Stability can and should be in all Fields, based on Respect and Unconditionality in the bonds of Brotherhood for the Common Good, Joy and Human Prosperity.

We are happy to work together for that Community of Shared Future, in Peace, Wellbeing and Joy, recognizing in the People's Republic of China, its Government and its People, the high expressions of True Humanism and Safeguarding of Peace, Tranquility, Stability, and Fraternal Affection, between Peoples and Governments.

We reject the interested, envious and extreme interference of the Imperialists of the Earth, who only destroy, and do not contribute anything to the Well-being of our Peoples, who as creators and owners of the Wealth of the Planet, deserve.
