

**Gobierno de Reconciliación y Unidad Nacional
Unida Nicaragua Triunfa**

NICARAGUA FOREVER DIGNIFIED AND FREE

**A Worthy Response from the People of Darío
and Sandino**

The Government of Reconciliation and National Unity of this Nicaragua of Ours, Blessed, Dignified and Forever Free Nicaragua, informs the Nicaraguan People and the International Community that it has learned of a new outrage and aggression against our Sovereignty, from an infamous Document of the State Department of the United States of America, which attributes to itself the role, granted by no one, of guardian of Human Rights in the World.

We in no way recognize this attribution that the North American Empire assigns itself, and we reiterate our just accusations and

denunciations of the colonialist and neo-colonialist Governments of the United States, for all the crimes committed against Nicaragua at different times in our history, crimes that have represented the violation of all the Rights of Nicaragua's People in virulent, crude and cruel episodes and circumstances, exposing a voracious and perverse attempt at imperial domination of our Nicaragua.

Because we are not a North American colony, Our People and Government in forcefully rejecting that tendentious, biased and prejudiced imperial presentation, with its constant, unsustainable wish for superiority, based on a fictional, brash and offensive Manifest Destiny, reminds the United States of all the crimes it has committed in the name of its imperial gluttony; crimes and perversities, wars and genocides, which we will never stop denouncing.

The United States, American Imperialism is no one to accuse a small People, against which they have instigated crimes against humanity, and where they have co-opted the creole egomaniacs for their use and benefit, using them as servants and slaves, above all to commit capital murders like the one they exhibited to the World, when they assassinated the great General Benjamin Zeledón, and the courageous General of Free Men and Women, Augusto Sandino.

We answer their list of infamous slander and defamation by throwing it back at them... provocateurs, aggressors, invaders and directors of choirs and orchestras made up of their local servants. We denounce them once more as the most barbaric and savage violators of all human rights.

As Sandino said` "I don't sell out and I don't surrender, ever." And we say today and always, with Sandino, our Distinguished and Undefeated General: We don't sell out, nor do we surrender. We want a Free Nation or Death, and to you, Imperialists of the Earth, our contempt for your pretensions and airs of greatness built on the blood of millions of Human Beings, who are the Community of Free Peoples of this World.

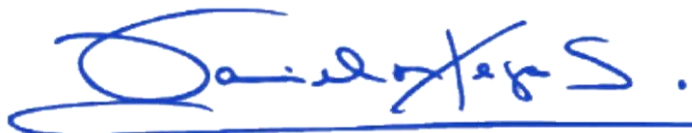

Your reports are from you, about you and for you. We don't recognize them. We do not belong to a subjugated or colonized culture.

Answer for your crimes before the International Court of Justice, and comply with the Historic Sentence that obliges you to compensate Nicaragua for just one of your many genocidal wars.

You seem not to realize that there is another World now, and those of us who do not regard the United States as Masters or Owners of the Human Community, of our Riches, Cultures, Languages and Heritages, that is where we live.

Managua, Nicaragua Blessed and Forever Sovereign,

April 23rd 2024
